

SAML Lab Prerequisites

Here are the steps to prepare for the session exercise:

Step 1 - Create an Employee Tableau Online Site

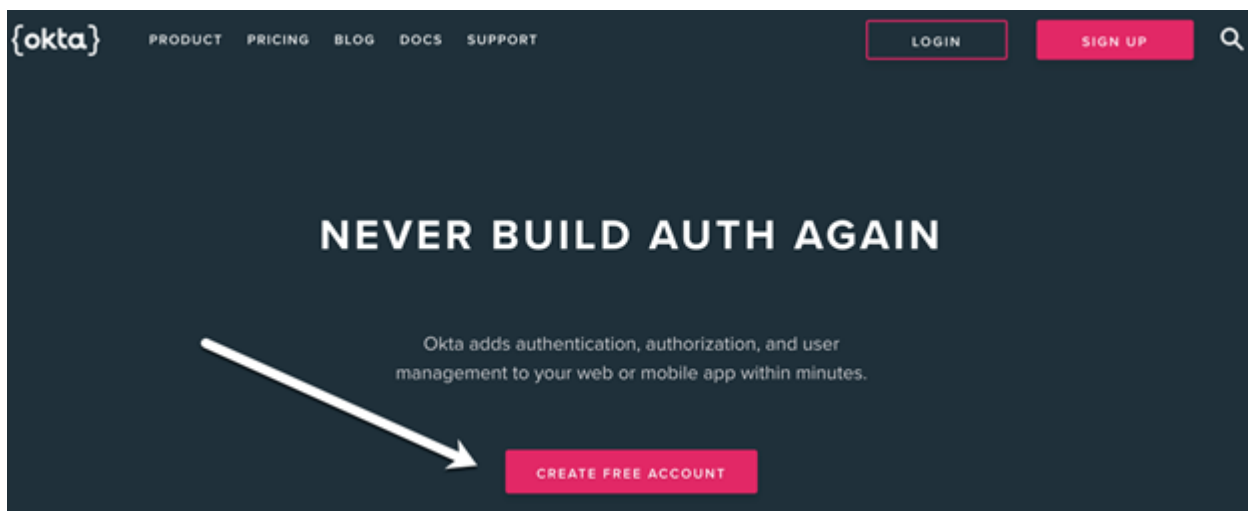

If you do not already have a personal Tableau Online Site, please create one now using the instructions on the myTableau (<https://mytableau.tableaucorp.com/display/devft/Tableau+Online+Employee>) or on Sales Insight (<https://salesinsight.gosavo.com/CustomPage/View.aspx?id=34046580>)

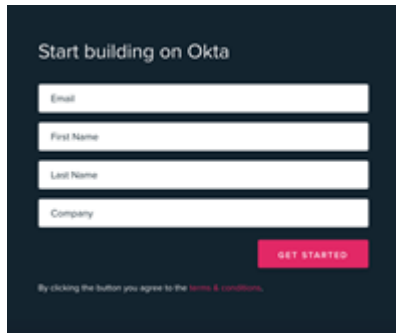

Home office/remote employees will need to create an ATTask (not ServiceNow ticket). It may take a couple of days to complete so please plan ahead.

Step 2 - Sign up for Okta Developer Account

Please sign up for an Okta Developers account (<https://developer.okta.com/>). Click on the **CREATE FREE ACCOUNT** button

This developer account is fully functional and free. You will be able to use it for learning and customer demos after gSKO.

By clicking the button you agree to the [Terms & Conditions](#).

Confirm your account via email:

Step 3 - Complete Qualtrics Survey Form

After completing steps #1 and #2, please complete the Qualtrics survey form

(https://tableau.co1.qualtrics.com/jfe/form/SV_24dwS8oHAC0vvGR) to let us know you have completed the Tableau Online and Okta Developer Account setup.

If you have issues with any steps you can email [Robin Cottiss](#) or create an [issue](#) on this Github repository.
